

Celebrate Nature with us this September

To celebrate the 2010 International Year of Biodiversity, the Nature Conservation Council and its member groups have put together a program of nature-based events throughout the month of September. The Celebrate Nature calendar is now available online, with more than 60 events scheduled across the state.

Celebrate Nature has something for everybody: bushwalks, bird watching, bat counting, bug spotting, bush restoration, workshops, conferences, slide shows and even a nature-inspired concert. Keep an eye out in Nature News Online for updates on events throughout September.

The Celebrate Nature program of events and activities aims to:

- celebrate the important work of NCC and its member groups;
- raise public awareness of nature conservation issues across the state;
- promote a positive vision for nature conservation in NSW.
